

> As our friends from Harvey-Mudd said, we are here to answer questions
> that teams might have for the July flights.
> OK, let's start with Harvey-Mudd
<one2004-476> is there a schedule for our time in houston?
> yes, there is a generic schedule up on the web it's under Once Selected / Houston Info
> Anything you need to know about it, a detail?
<one2004-476> uhh.. I should look at the schedule first and ask questions later
> OK, sounds like a plan.
> OK, Kentucky - questions?
<Jones/2004-529> is it ok to change the Order of the flyers once we arrive?
> not sure what you mean
<Jones/2004-529> we have four flyers. can we rearrange them in houston?
> Sure - you pick (as a team) who flies on a specific flight day For example, if you are flying on Tues/Wed you pick who flies Tues and who flies Wed
<Jones/2004-529> ok
> you do not have to keep with that particular info in the TEDP
> another Ky question?
<Jones/2004-529> any suggestions for fun toys to bring on the flight?
> a gyroscope is always instructive, anything you bring will have to be present for the TRR and cleared to bring on the flight
> let's move on to A&M/Cinn > question?
<Leslie/2004-458> one of our flyers is a co-op with Lockheed
<Leslie/2004-458> do contractors have access to Ellington, or will he need another badge?
> no badge needed from here - his Lockheed badge will do fine . does he have site access under his Lock badge?
<Leslie/2004-458> JSC access, yes
> OK, then he'll do fine (or she'll do fine)
<Leslie/2004-458> also- are we allowed to bring our cameras on the flight if it's not listed in the TEDP?
> yes, you can bring a small personal camera , still or video is OK as long as it does NOT have too many pieces (like lens caps, flash, extra lenses, etc)
> OK, TAMU - welcome, questions?
<Barnard/2004-461> none at the moment - just here to get any extra info
> OK, wise choice
> OK, Dartmouth, NH welcome to the flight program -
<Feldman/2004-545> Nt at the moment. We're also here for any extra info
> Drury - you back from lunch?
<Stockton\2004-547> Who should we contact if we've made changes after turning in the TEDP
> Dom Del Rosso at 281.244.9113 . he's a test director here at Ellington and an engineer (but we don't talk about that much)
> OK, drury - another question?
<Stockton\2004-547> not at the moment
> Looks like we've gone through the list
> anyone with any technical questions so that we can put Dominic to work?

<one2004-476> so i need to make travel arrangements for my faculty advisor but he doesn't want to spend too much time in houston when do we find out if we are tues/wed or thurs/fri?

<JonesD/2004-529> are you here all weekend?

<Feldman/2004-545> is there anything scheduled for our days off at jsc?

<Dorman/2004-469> yeah btw if you get a chance is there anything to do in houston?

> are the teams here on the weekend? yes

<Leslie/2004-458> The NASA co-op college students plan activities for everyone

> do we have scheduled activities for the teams on the weekend? no

<one2004-476> what days would you recommend the fac adv to come?

> You won't have many days off while you are here the schedule is packed pretty tightly during the day

> have your advisor call Deanna to discuss any other questions?

<Leslie/2004-458> are we going to get any reviewers' comments on the TEDP?

> if we have problems or difficulties or concerns with what you've written

> yes, we will contact you Dom is reading them now and should be done by end of next week

<one2004-476> do the makeup sessions end by lunch time?

> saturday flights, I think you're talking about

<one2004-476> yes

> we fly when we can. if we have to schedule on Saturday, then we'll shoot for the morning

<JonesD/2004-529> no flying in hurricanes, correct?

> if weather or ops keeps us from doing that we'll try for the afternoon

<Dorman/2004-469> just curious, who are you nasa? will we be seeing you around?

> Yes, you will definitely see us - I'm Donn Sickorez, typist

<one2004-476> so when's the absolute earliest we can plan our flights to leave?

> Deanna, Dawn and Dominic are here, also

<JonesD/2004-529> ohh...hi reverend.

> I would suggest changeable tickets or fly standby (says Dom)

> tough call - worst case would be a Saturday night flight out of HOU

> OK, any more questions for us?

<one2004-476> what kind of shoes do we wear?

> Good question, something tasteful, earth tones are in

> OK, no sandals

> sneakers or running shoes which DO NOT leave black marks on stuff

offloading between flights - not a problem, usually . how big is your experiment? how complicated?

<JonesD/2004-529> big, 350 lb.

<JonesD/2004-529> a big box.

<one2004-476> i thought 300 lbs is max

<JonesD/2004-529> sorry...had to get special clearance.

> OK, you might want to talk this with Dominic - 281.244.9113

> if you want to remove the whole box that will be somewhat difficult if it's just parts and pieces that need to be replenished, that is much simpler

<JonesD/2004-529> i'll call.

<JonesD/2004-529> when do we do badging requests? and evac's
> it will be sent out in about 2 weeks
<one2004-476> all of us are under 25. where can we get a rental car?
> you might want to call Rose Aquilina at 281.244.9874 and ask her if she knows of any place
<Dorman/2004-469> hmm can we get tours or anything?
> yes, we arrange tours and an astronaut briefing for the teams.
<Dorman/2004-469> sweet! sorry to be a tourist
> July 21 there is a career fair at JSC - you'd be welcome to attend and bring your resume
> OK, anyone else?
> Doesn't look it - so, we'll call it a day.
> We'll copy the text of this session and post it to the web site.
> JSC logging off - see you in July
<Feldman/2004-545> can't wait!
<Dorman/2004-469> good day
