

Microgravity University for EducA+ors

Calling All Teachers!

Get the most out of MgUE!
Follow these tips from NASA Astronaut & former classroom teacher Ricky Arnold:

1. Take advantage of the know-how and facilities that help us prepare to do amazing things in space.
2. Enjoy your time at Johnson Space Center, the home of human Spaceflight.
3. Share your experiences with your students, colleagues and school community back home.

Come spend a week at Johnson Space Center's Space Vehicle Mockup Facility (expenses paid!) while you:

- Test your students' designs using NASA's simulated microgravity environments
- Earn Professional Development hours
- Incorporate current NASA programs into your classroom

Tune in to an online information session that includes tips from the Microgravity University for Educators Coordinators and subject matter experts. Go to <http://go.nasa.gov/NASAMgUE> to attend one of these sessions:

Thursday, October 27, 2016 at 7:00 pm Central

Tuesday, November 1, 2016 at 7:00 pm Central

Thursday, November 17, 2016 at 7:00 pm Central

Visit <http://go.nasa.gov/NASAMgUE> to learn more about **Microgravity University for Educators.**

Hurry! Proposals are due **December 1, 2016!**
All questions can be directed to JSC-EPD@mail.nasa.gov.
